**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 06/29/2007 has been entered.

***Terminal Disclaimer***

2. The terminal disclaimer filed on 11/17/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 6,591,085 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Remark***

3. Claims 39-40 and 76-102 have been canceled, and claims 1-38 and 41-75 are pending for reconsideration. Regarding the comments on the allowance in the previous action, the examiner appreciates the comments; yet the examiner feels it is unnecessary to repeat the claim languages of the claims BUT to the reasons the examiner believes the claims are allowable over the prior arts instead.

***Allowable Subject Matter***

4. Claims 1-38 and 41-75 have been allowed.

*Reasons for Allowance*

5. The following is an examiner's statement of reasons for allowance:

The closest prior art of records issued to White and Diaz fails to either alone or in combination to teach or suggest each and every feature of the present invention for an FM transmitter and power supply/charging assembly coupled to a MP3 player with the arrangement of docking, docking cavity with retention means for retaining the MP3 player in the position in the cavity, power charging circuitry, wherein the electrical power is transmitting through a modular docking unit and the power charging circuitry, and to accommodate FM transmission by the FM transmitter of audio content when played by the MP3 player in the docking cavity unit as cited in claim 1, and similarly as claimed in claim 31 and claims 36-38. White teaches a docking unit for a portable computer apparatus (Figs. 10 & 11); however, White is silent on whether the device is a MP3 or any digital media player; and the docking is not coupled to an FM transmitter for accommodating the FM transmission by the FM transmitter of audio content when played by the MP3 player in the docking cavity. Meanwhile, Diaz simply teaches a different technique by using a remote control for controlling an MP3 player coupled to the vehicle system (Diaz, col. 4/lines 47-59). Chang reads on claims 39-40 and 76-102, the cancellation of these claims renders the rejection of Chang is moot.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
